

Topics of Current Interest

Current topics include:

- ◆ Intelligence warfighting at echelons corps and below (corps, division, or brigade).
- ◆ How E-MIBs enable corps and division transformation.
- ◆ How the ASCC enables transforming units.
- ◆ How to best transform and fight the general support MI company, division IEW battalion, and corps IEW battalion.
- ◆ How data is helping a tactical problem.

Articles should be—

- ◆ Tactically focused, not a strategic whitepaper.
- ◆ Experiences of a practitioner, “how to” fight intelligence.
- ◆ Grounded in real-world trial and error. (CTC rotations and WFX are good but may or may not be artificial.)
- ◆ Easily understood by readers who can then replicate your experience.
